

FAST SIGN-UPS HAPPENING NOW

Do you irrigate along Fifteenmile or Eightmile streams?

Sign up for FAST (Fifteenmile Action to Stabilize Temperatures)

*Under FAST, irrigators agree to voluntarily shut off creek diversions when stream temperatures lethal to steelhead are predicted, therefore reducing irrigator liability for 'take' under the Endangered Species Act. Irrigators will be **PAID** for shutting off water during Alert Days.*

Sign Up Deadline: Friday, March 2nd 2018

FAST Option	Terms	Seniority	Payment
FAST Option 1	Required to shut off during temperature alerts, payment at beginning of season based on acres enrolled and baseline alert days	1856-1896	\$51.82/acre
		1897-1909	\$44.42/acre
		1910-1949	\$22.24/acre
		1950-1959	\$13.88/acre
		1960-1985	\$ 9.45/acre
FAST Option 2	Choose to shut off during temperature alerts, payment at end of season based on gallons curtailed (capped at payment under FAST Option 1)	Any, provided not already regulated off at time of temperature alert	Jun: \$0.0004/gal
			Jul: \$0.0003/gal
			Aug: \$0.0003/gal
			Sep: \$0.0003/gal

FAST Goals

- Balance irrigator needs with ecological demands
- Maintain vibrant agricultural communities
- Maintain fish friendly water temperatures to prevent fish kills
- Conserve riparian ecosystems

Financial compensation is available to irrigators who participate in FAST.
